

Africa-Focused. Globally Open.

Africawe Strategic Partnerships

Revised preview prospectus · 27 October 2026 · Not approved for public release

Research, trade readiness and stronger cross-border relationships. Organizations from every country are welcome under the same review standards. A discussion is not a commitment; every collaboration needs an agreed scope and owner authorization.

Institutional Trade Partner

For banks, export agencies, trade institutions, chambers and associations. Discuss possible trade-readiness support and future programs for the businesses you serve.

Corporate Growth Partner

For corporations, manufacturers, distributors and commercial groups. Explore a clearly scoped sector or trade-corridor collaboration.

Founding Sponsor

For organizations supporting Africawe through disclosed sponsorship and agreed deliverables. Founding sponsorship is distinct from Founding Circle membership.

Technology & Service Partner

For technology, logistics, fintech, payments and professional-service organizations. Discuss potential contributions; no integration is represented as live without verification and approval.

Institutional pricing: by private proposal. No public institutional package prices or automatic institutional programs.

Africa-Focused. Globally Open.

Commercial visibility sponsorship

Separately retained introductory proposals. A 90-day paid visibility pilot may be agreed subject to placement availability, content review, staffing and written agreement. Scope, inventory and reporting are defined before payment. This prospectus is not a checkout or payment authorization.

Community Sponsor · $50/month

Sponsor profile, clearly labeled directory presence and basic click reporting.

Business Growth Sponsor · $150/month

Enhanced profile, relevant category placement and quarterly performance summary.

Market Access Sponsor · $250/month

Sector-focused sponsored placement, eligible education or webinar opportunity and monthly reporting.

Premium Market Partner · $500/month

Limited premium placement, agreed sector campaign and tailored deliverables/reporting.

Business Growth Sponsor is a visibility offering, not the deferred Business Growth membership tier. These monthly proposals do not change existing membership, subscription or Stripe prices.

Recognition and reporting

Promotional placements are labeled Sponsored. Name/logo recognition requires an effective agreement, explicit rights and approval of exact copy, placement and dates. Only actual recorded measurements may be reported; views and clicks are not unique people, sales or guaranteed audience. Education and campaigns are agreed deliverables, not automatic benefits.

Sponsorship does not buy verification, influence readiness scores or preferred organic matching, or grant access to private answers, evidence or member contacts. Regulated financial promotions require relevant licensing and jurisdiction checks.

Africa-Focused. Globally Open.

Africawe ATES — a careful start

ATES remains in preview. ATES-10 is in preparation as an invitation-only controlled pilot, not an activated or openly enrolling institutional program. Institutional services and participant reporting are future proposals, not currently available benefits.

ATES-10 planning boundaries

At most ten distinct lifetime accepted real businesses; withdrawal does not automatically reopen a place. The 90 days start only on an owner-approved activation date. An inquiry does not admit a business, activate the pilot or authorize recruitment. Participation remains globally open under equal review standards.

Human guidance and evidence review

Leul Asfaw and Africawe professional staff provide human guidance. Only an actual completed, recorded review may be labeled “Reviewed by Africawe’s qualified professional staff”, with the reviewer, relevant qualification and date. The label applies only to the evidence and scope reviewed; it does not imply independent external accreditation.

Introductions and decisions

Potential matches are in preview. Introductions are planned and require consent from both sides and staff coordination. Africawe does not execute or guarantee transactions. No buyer, contract, capital, sale, financing, compliance or audience outcome is guaranteed.

Limits that remain visible

Verification and staff review are not a credit rating, government certification, legal opinion, audit, AML check or guarantee. AI/ATES guidance is preliminary and informational, may contain errors, and is not legal, financial or investment advice. Confirm product/destination requirements with relevant authorities or advisers.

Start with a private discussion

Submit an inquiry at https://africawe.com/partners or contact info@africawe.com. Proposals remain private, customized and subject to owner approval. No unconfirmed institutional, government or corporate endorsement is implied.
